DOORWAY DOLLY

Matthews builds the strongest platform dollies in the business! For years the Doorway Dolly has proven its versatility on stage and location. Quick change pneumatic wheels are standard equipment. Combination Track/Stage Wheels allow for running on hard surfaces. The Dolly can easily be fitted with Matthews Hot Buttons for use on straight or curve track. The platform is fitted with a recessed camera tie-down and is carpeted for a nonslip, low maintenance surface.

The Doorway Dolly will move through a full range of travel with either the Push Bar or Pull Bar. Load it with gear to get to the location with ease! The platform can be flipped over for even lower camera positioning. Ground clearance is 9" or 3" when inverted. The removable side boards add an extra 10" per side for increased platform width.

The wheelbase is 28-1/4" wide and the platform length is 51". Hot Buttons can be easily installed to accommodate standard 24.5" width track. Weight Capacity 800 Lbs. (363 kg)

The Doorway Dolly with Turret provides a 360° swing of both the camera mount and operator with all the functions of the standard dolly system. Mitchell mount and single operator seat are standard.
